2023 Supplement

Introduction

Dear Henri Studio Enthusiast!

Another year behind us and another year of anticipation and excitement ahead! For 2023, we're adding another **21 NEW HENRI STUDIO ORIGINALS!** And the creativity continues to continue at Henri Studio.....

- Our **Athena Fountain** has classic Greco/Roman lines. A neo-classical design that's right at home with most any landscape, providing generous water flow and sound.
- Four stacked discs in a compact modern design allow our **Solstice Fountain** to generate plenty of water action along with a very pleasing acoustic resonance.
- As if cut from a single stone, water cascades over the roughhewn sides of our **Low Organic Bowl Fountain** and **Tall Organic Urn Fountain** whilst a plume of light dances above.
- Our **Ellipse Fountain** projects water from its apex, then cascades back and forth between stone carved scuppers, finally arriving at the basin below. The pass-through element of this design allows the fountain and your garden landscape to visually become one.
- The **Cocco Quad Fountain** features four large husked bowls providing a continuous flow of magical liquid tranquility for your garden.
- Three cascading bowls plunging into a fourth larger bowl allow the **Verona Fountain's** five copper spills to provide smooth flowing peace and harmony for your garden landscape.
- Our **Adobe Springs Fountain** features three staggered copper spills cascading wide streams of water into an organic pool. Add a non-draining oval planter to the top and liven it up!
- The **Tiered Cocco Spill Fountain** has a big wide presence, exuding nature's elegance with a balance of cascading water and multiple copper accents.
- Criss-crossing and spilling waters are the hallmarks of our **Crescent Two-Spill Fountain**. Viewed from any angle this fountain is dynamic in design and water flow.
- Our **Water Lilies Fountain** features shimmering pools of water and tranquil droplets of water filling the large pool of water below.
- In response to the popularity of our Moon Dance Fountain, we now bring you the **Sundance Fountain** which features both a cascading waterfall and a stair-stepping secondary flow. A modern masterpiece for modern tastes.
- Our **Spouting Dolphin Spitter** will be an awesome accent piece for pools and ponds throughout the country. Add your pump of choice and see how far that water will travel.
- Proud to be an American, our **Pledge Stone** features a waving American flag inscribed with The Pledge of Allegiance. A true work of art that can be placed in so many deserving locations.
- Our seven new **Garden Gnomes** are beautifully sculpted with wonderful accents both front and back; and even their caps highlight their specific themes.
 - Our **"Dude" Gnome** hasn't a care in the world. He just kicks it back and hangs loose
 - Our **"Gardener" Gnome** has the tools to help keep your garden looking tiptop
 - Our **"Serve & Protect" Gnome** stands ready to defend your garden against all predators
 - Our **"Hiker" Gnome** is ready for a day hike and has a special friend catching a ride
 - Our **"Angler" Gnome** is decked out with all the gear that makes for a successful day
